Profile

Detail-oriented BCA graduate with a strong foundation in Data Structures, Object-Oriented Programming (OOP), and Database Management Systems (DBMS). Skilled in full-stack web development using React.js, Node.js, Express.js, MongoDB, and REST APIs, with hands-on experience gained through a software development internship and multiple real-world projects. Proficient in Java, Python, C++, and JavaScript, with additional exposure to Android development using Kotlin and Jetpack Compose. Familiar with Git, GitHub, Netlify, Render, and Supabase for version control, deployment, and backend services. Passionate about developing scalable web applications, continuously learning new technologies, and contributing effectively as a Software Developer or Full Stack Developer.

Education

- 2026 **Bachelor of Computer Applications (BCA)**, *Seshadripuram College, Tumkur*, CGPA: 8.83/10
- 2023 **PUC (Commerce)**, *Vidyaniketan Pre-University College, Tumkur*, Percentage: 90.6%
- 2021 **SSLC**, *Vidyaniketan High School, Tumkur*, Percentage: 60%

Experience

2026 Full Stack Web Developer Intern

Company - Labmentix

Remote / Online

- Developed and shipped full-stack web application features using React.Js, Node.Js, and Express.Js as part of an agile development team
- Built and integrated RESTful APIs, handling data storage and retrieval with MongoDB and SupaBase
- Designed responsive, mobile-first UI components, improving cross-device usability
- Collaborated with team members via Git/GitHub on version control, code reviews, and bug fixes

Skills

Languages C, C++, C#, Java, Python, R Programming

Frontend HTML, CSS, JavaScript, React.js, Tailwind css, Bootstrap

Backend Node.js, Express.js, Spring Boot, Rest APIs

Database MySQL, Mongo DB, Postagre SQL, Supabase

Tools Git, GitHub, Netlify, Android studio, Render, VS-code

Certifications

- 2026 Advanced Java Program – Alpha Tech Academy
- 2025 Java Full Stack Development – S Spider Institute
- 2025 Aptitude and Soft Skills – Glisten Education

2025 R Programming for Beginners - simplilearn
2024 Buildathon, a web development challenge
2024 Database Connectivity Workshop using vs code-C and msSQL
2023 Warehouse Associate – Atos Prayas Foundation

■ Projects

CodePlay – Online Coding Platform (HTML, CSS, JavaScript, JDoodle API)

Developed an interactive web platform that allows users to write, compile, and execute code in multiple languages using the JDoodle API. Focused on creating a clean and intuitive user interface.

Project Code: <https://github.com/adilpasha03/codeplay.git>

Project link: <https://codeandrun.netlify.app>

AI Data Analyst Dashboard (React.js, Node.js, Express.js, Chart.js/Recharts, Gemini API, MongoDB)

Developed a full-stack analytics dashboard that visualizes data through interactive charts and leverages the Gemini API to generate AI-driven insights and natural language summaries from uploaded datasets. Enabled users to query their data conversationally and receive automated analysis, trends, and recommendations.

Project Code: <https://github.com/adilpasha03/ai-data-analyst-dashboard.git/>

Project link: <https://ai-data-analyst-dashboard.netlify.app/>

K.R Timbers Business Management System (HTML, CSS, JavaScript, Local Storage)

Created a business management platform to track daily transactions, profits, and losses, enabling data-driven decision-making for the owner.

Project Code: <https://github.com/adilpasha03/KR-Timber.git/>

Project link: <https://timber20.netlify.app/>

QR Authenticated Voting System (HTML, CSS, JavaScript, Node.Js, Express.Js, Supabase, QR Technology)

Developed a secure QR Authenticated Voting System using HTML, CSS, JavaScript, and Supabase, enabling QR code-based voter authentication, secure vote casting, and an admin dashboard for managing candidates, voters, and election results.

Project Code: <https://github.com/adilpasha03/QR-Authenticated-Voting-System.git/>

VoxIntel AI – Speech Recognition Transcription Platform (React.Js, Node.Js, Tailwind CSS, MongoDB, Deepgram API)

Built a full-stack AI transcription app enabling real-time audio-to-text conversion via the Deepgram API, with live transcription preview, export to PDF, and transcription history management.

Project Code: <https://github.com/adilpasha03/speech-text.git/>

Project link: <https://speech-text-web.netlify.app/>

ADIL PASHA - Portfolio (React.Js, JavaScript, Tailwind CSS, Frame Motion, Vite)

Developed a responsive personal portfolio website using React.js and Tailwind CSS to showcase projects, skills, and experience, featuring modern UI, smooth animations, dark/light mode, and Netlify deployment.

Project Code: <https://github.com/adilpasha03/Adil-Portfolio.git/>

Project link: <https://adilpasha-portfolio.netlify.app/>

CampusConnect – Android App

(Android Studio, Kotlin, Jetpack Compose)

Built a modern Kotlin-based Android app using Jetpack Compose, featuring modules for timetable, assignments, attendance, and notices with Material 3 UI and smooth navigation. Further enhancements in progress.

App Interface: <https://github.com/adilpasha03/CampusConnect-App.git>

Achievements

2024 2nd Place – College Buildathon (Web Development Challenge)

2023 MERIT SCHOLARSHIP for having secured 90.6% in XII Standard PUE Board examination

Successfully completed multiple interactive web applications and collaborated on dynamic team projects.

Strengths

Quick learner, adaptable to new technologies

Strong problem-solving and debugging skills

Excellent communication and collaborative teamwork skills

Capable of working independently under pressure

Interests

Web Design, Full stack Development, Coding, Traveling

Career Objective

Aspiring Software Developer with hands-on experience in full-stack web development, strong programming fundamentals, and a passion for building efficient, scalable, and user-centric applications. Seeking an opportunity to contribute to a dynamic organization where I can apply my technical skills, grow as a software engineer, and deliver innovative solutions that create business value.
